Title: Amazing

Review: I have been using Superterra for over two years now. I use it to deal with depression, anxiety, and IBS. The relief it gives is incredible. It's seriously changed my life. I highly recommend this product to anyone who suffers from similar conditions.

Date: 2023-01-01

Title: Excellent

Review: I was skeptical at first, but after using this product, I was amazed. My anxiety levels have significantly decreased, and I feel much more relaxed. I would highly recommend it to anyone looking for a natural way to manage stress.

Date: 2023-02-15

Title: Wonderful

Review: I have tried many different CBD products, but this one is by far the best. The taste is great, and the effects are long-lasting. I highly recommend it to anyone who wants to try something natural for pain management.

Date: 2023-03-01

Title: Great

Review: I bought this product for my dad, who has been dealing with chronic pain for years. He has been using it for a month now, and the results have been amazing. He no longer needs as many painkillers, and he feels much better overall.

  - Swallow slowly

- For topical use:
  - Apply on the skin

- For smoking:
  - Use with a vaporizer

Ingredients

- Canna oil, terpenes, dried lemongrass, stevia, and essential oil blend, MedCann

Terpenes

Terpenes are compounds that can be found in the Cannabis plant. They work alongside cannabinoids such as THC and CBD to create the unique flavor and effects.

- **A-Pinene**:
  - A prominent terpene in cannabis strains, known for its uplifting and energizing effects.

- **B-Caryophyllene**:
  - Known for its anxiety and depression-relieving properties, it also interacts with the CB2 receptors in the body.

- **Borneol**:
  - Associated with a sweet and floral aroma, it has analgesic properties.

- **Humulene**:
  - Known for its calming properties, it also has potential anti-inflammatory effects.

- **Limonene**:
  - A citrusy-smelling terpene, it is often found in high concentrations in sativa-dominant strains.

- **Myrcene**:
  - Known for its musky and earthy aroma, it is also thought to have pain-relieving properties.

- **Linalool**:
  - A floral and relaxing terpene, it is commonly found in indica-dominant strains.
